B Block, Faisal Town, Lahore, Pakistan

EXPERIENCE

Frontend Web Developer (Intern)

May 2025 – Present

Droidor

Gulberg, Lahore, Pakistan

- Developed and maintained 15+ reusable UI components with React/Next.js, ensuring design consistency across 6 web pages.
- Optimized frontend assets, code-splitting, and lazy loading, reducing initial page load time by 28%.
- Integrated 8+ REST and serverless backend API endpoints using Supabase and Firebase with robust error and loading states.
- Implemented secure user authentication and OAuth session flows utilizing Auth.js (NextAuth).
- Integrated Stripe API for secure checkout pipelines, processing transactions and managing order redirect flows.

PROJECTS

Orin - Minimal Blog | [Live Demo](#) | [GitHub](#) | *Next.js, Supabase, Gemini API, Tailwind CSS, TypeScript*

- Engineered a high-performance blogging application with dynamic content rendering using Next.js App Router and Supabase, supporting 100+ active sessions.
- Integrated Gemini API to enable automated, context-aware AI post generation, reducing content drafting time by 40%.
- Built an intuitive admin panel featuring post creation tools, active user management, and real-time view analytics.
- Deployed on Vercel with structured SEO tags and metadata, achieving a 95+ Lighthouse performance and accessibility score.

Zara Store Clone | [Live Demo](#) | [GitHub](#) | *React.js, Firebase, Stripe API, Tailwind CSS*

- Developed an e-commerce store with real-time product catalogs powered by Firebase Firestore.
- Integrated Stripe Payment gateway, handling simulated transaction pipelines with <2s checkout response time.
- Designed a shopping cart with persistent state, supporting 50+ concurrent checkout sessions.
- Built responsive product views utilizing Tailwind CSS, decreasing page size by 25%.

Kyra AI - Chat Assistant | [Live Demo](#) | [GitHub](#) | *Next.js, Firebase, Gemini API, Tailwind CSS, TypeScript*

- Designed and built an interactive chat assistant enabling multi-user chat sessions with custom system instructions and dynamic latency under 200ms.
- Implemented secure user authentication and saved conversation histories in real-time using Firebase Auth and Firestore.
- Developed a polished, fluid, and responsive dark-mode layout using Tailwind CSS with glassmorphic UI elements.
- Integrated secure server-side API endpoints using Next.js Route Handlers, optimizing payload size by 15% and enhancing data privacy.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

2021 – 2025

Virtual University of Pakistan

Lahore, Pakistan
